What

There is just this much about it: Dandruff is a germ disease, is most untidy, annoying, and leads to baldness. When chronic, it is very stubborn, but surely yields to thorough and energetic treatment. All germs must be destroyed, the scalp must be restored to health. Here is the remedy: Ayer's Hair Vigor.

DOES NOT COLOR THE HAIR

Ask your doctor about using it.

MOROS SATISFIED WITH AMERICAN RULE

Secretary Dickinson replied that it

appeared best to let it remain separated as it now is and that such a separation would probably be continued in-

On this subject Date Mandi and "if the Americans are to give up Mindana, they should return it to the Mores and not to the Filipines." Secretary Dickinson made a strong speech on this subject and the attempted demonstration on the part of the Filipinos fell flat in the face of the speeches of the Mores.

At seven-thirty the entire party were the guests of the officers of the post for dinner. After dinner General Per-shing held a reception at his quarters.

PASSENGERS.

Arrived.

ZAMBOANGA, August 23.—Secretary of War Dickinson and party arrived here this morning. They were greeted by a mammoth reception participated in by all elements of the population. Immediately upon landing the party proceeded to Camp Pettit accompanied by General Pershing and staff where a brief reception was held by the commanding general, and the troops of the camp were reviewed. This was followed by a grand parade participated in by both the military and the civil population. An athletic tournament and games and Moro dances followed. At eleven o clock a public reception was held in the Zamboanga theater. During this function Mannel Quezon attempted to get up a demonstration in favor of independence among the Filipines of Zamboanga. In response to the movement Secretary Dickinson commanded them to turn to and work with the present administration to bring about a condition of affairs under which independence would be possible. In the course of this address he took occasion to praise the American administration in uplifting the péople and in preparing them for the duties of citizens under an independent government when the time should come.

painting discovery that the increased cost of living is being felt by the prison officials as well as by ordinary mortals.

Prison figures are based on the cost per day per prisoner, and the figures show that it costs several cents a day more now to keep cacle prisoner than it did a short time area. The higher it did a short time ago. The higher price of various commodities is largely responsible for this, but there are also other reasons. For one, the county jail is now separate from the territorial prison and consequently there are fewer prisoners in the penitentiary than for-merly. Naturally, the prison officials are not able to buy at as advantageous figures as before. Hesides this, more of the prisoners have to be kept at work in the institution as cooks, servants and so forth, and this reduces the earning capacity of the prison as a

Governor Frear says that the prison is not up to date. It is too small for one thing, and the arrangements are by no means perfect. The sanitary arrangements are not what they should be and the legislature will be asked to do something to remedy this. Also under the present system, each of the cells has to be locked separately. This would prove dangerous in the event of fire and some new system is needed.

In view of the radical changes that

need to be made and the value of the present prison site, Governor Frear says it might be as well for the legislature to consider the matter of selling the present site and moving to another lo-cation, preferably one nearer the quar-ries where most of the prisoners now work. As this would probably take the jail into a residence section, there is the probability that any such suggestion will meet with strong disapproval.

Contingency Fund. Governor Frear says that fourteen of the twenty-four months of the legislathe twenty-four months of the legisla-tive period have now passed and so he can judge pretty well what demands will be made on his contingent fund. So he is now figuring on how best to apply what is left of the fund. The prison has been running behind for some time, on account of the increased cost of living, and a draft must be made on the contingency fund to keen the in-O. Lutted, W. S. Terry, C. K. Notley.

ANOTHER CHINESE

ENVOY COMING

Gen. Yithan Kang Wang, of the Chinese army, arrived in New York last month on board the Kaiserin Auguste Victoria, of the Hamburg-American line, on his way back to his native

For several months General Wang has been on the continent as a special envoy from Tai Hung Tsio, the Prince Regent of China. His mission has been to make formal announcement to the Tsar of Russia and the governments of the various European countries of the death

of the Emperor and Empress Dowager of China.

General Wang was met in New York by the Chinese vice consul in this city. As a military man he has expressed a desire to visit Governors Island and West Point, where arrangements are being made for his reception. He also will visit President Taft at Beverly and will make trips to Washington and one or two other cities of the eastern States before proceeding to China.

BONINE SUBSIDIZED TO VISIT PLANTATIONS

To make life more attractive to those living in the isolated plantation camps, where they can not go to the moving picture shows of the towns and cities, the planters' association intend to take the moving pictures to the people. R. K. Bonine is to start out very shortly on a tour of the entire group, taking with him his picture machines and a big stock of reels, having been subsidized by the planters to visit each of the plantation camps and put on an ex-
